Staff Interview

Mr. Nick Long is one of the shop teachers at MMCRU High School. Long decided he wanted to be a shop teacher after his high school shop experience. He believed his shop experience was great and that he was the best in his class. He also had a great relationship with his shop teacher, who suggested that he would be great as a shop teacher.

Long decided that his favorite class to teach at MMCRU is Heavy Machinery. Long stated, "I feel like the class is a skill set." Although Long has many strengths when it comes to teaching, he believes he shows strength the most in knowing and understanding what he is teaching. He is also very good at problem solving any situation that comes in the shop. Long did decide that his biggest weakness is staying organized. He enjoys making small construction projects, or other side projects outside of school. Long loves teaching students new things in shop and is a great teacher here at MMCRU.

Staff Interview

by Haydn Aduddell and Hunter Lesline

Mr. Mark Schuttler is a teacher at MMCRU High School. He is one of the resource teachers, as well as the high school golf coach. He is a good, respectable man and a friend to all of his students and fellow staff members. His ongoing teaching career has lasted 29 years, 7 of which so far have been spent at MMCRU.

Schuttler was born and raised in Pocahontas, Iowa. He was inspired to teach by his close friends who also had an interest in education. He received his college diploma from the now-defunct, Westmar University in Le Mars, Iowa. Before teaching in Marcus, Schuttler had previously worked at Remsen St. Marys, Gehlen Catholic, and Sioux City North, all of which are also in Iowa.

Schuttler's strengths as a teacher (as stated by himself) are his ability to communicate with and build relationships with students whether he has classes with them or not. His favorite school subject to help students with in his resource periods is math. However, he believes that he does have the tendency to be unorganized with his work area.

While he is not teaching, his favorite personal hobbies are hunting, playing golf, and he is also a fan of bingo. Schuttler states that he will not leave his current school of work to teach at any other school, and he will most likely retire after he is done teaching at MMCRU.

Senior Sunrise

On Monday, August 26th, MMCRU seniors got together for the tradition of 'Senior Sunrise'. The Senior Sunrise is when the entire senior class gets together at the beginning of the year to bond before the year starts. The Sunrise took place on the MMCRU football field at 6 am. They brought bags/cornhole, spikeball, and breakfast pizza. The goal is to enjoy the sunrise together before the start of Senior Year. We asked Bree Richardson what her favorite part of the sunrise was and she stated "I enjoy watching the sunrise with my classmates, and eating the breakfast pizza. The main part is bonding as a class, and getting our entire class together at the beginning of the year to take in the last first day of school." At the end of the year, the Seniors will watch the sunset on their last day of school. This represents the end of their Senior Year. According to Carver Miller, the sunset will be more enjoyable because it will last longer and he can spend more time with his classmates.

Staff Interview

Ms. VonSeggern is the choir teacher, and although she has been teaching for 5 years, this is her first year at MMCRU High School. She went to college at Wayne State, located in Wayne, Nebraska. It has been VonSeggern's dream to be a vocal teacher since she was in fourth grade. She was born and raised in Nebraska, and decided not to move back because this is where her fiance lives. VonSeggern prefers to teach Christmas and slower paced music because she believes it to be prettier. VonSeggern stated, "I enjoy teaching high school students over elementary students." VonSeggern has said that she's glad she took this job because it offers her the chance to live closer to home.

Staff Interview

Mrs. Sarah Brady teaches Agriculture and is the FFA Advisor at MMCRU High School. Brady received her diploma from Oklahoma Panhandle State University in Agricultural and Elementary Education. She is currently working towards her Master's Degree through the University of South Dakota. Brady is from West Union, Iowa, but is currently living in Marcus. If she could pick a different state to teach in, she would pick Oklahoma because that is where her family currently lives. When asked what her favorite thing is about being an FFA Advisor, Brady replied, "The memories that we make out of the trips, and students making new friends." Brady shared one of her strengths and weaknesses; strength includes relationship building with her students, while weakness is getting easily distracted when attempting to complete tasks. Brady's favorite class to teach is Intro to Ag because of all the topics they get to cover. Brady enjoys teaching Agriculture to students of this generation and hopes to make a difference here at MMCRU.
